

Our library was established in 1996, when the Drohobych Seminary was set up, as an essential part of the school. The emphasis in the library is on spiritual (religious) literature. The main subject areas are : "Scripture", "Writings of the Church Fathers", "History of the Universal Church", "History of the Ukrainian Church", "Philosophy", "Spirituality", "Theology", "The Works of A. Sheptytsky and J. Slipyy", "Lives of Saints and Ascetics", "Liturgical Studies", "The Holy Mysteries", "Religion", "The Priesthood", "Christology", "Family and Marriage", "Catechetics".

The Library also makes available literature on Ecclesiology, Apologetics, Iconography, Psychology, General History, Cultural History, Church Music, Canon Law, Councils and Synods and Church liturgical books.

At the present moment we are cataloguing our electronic library which includes a huge number of publications, many of which are rare.

Borrowing from the Library is restricted to the students and staff of the Seminary but the services of our reading room are open to the public.
